President's Message

As the COVID vaccine becomes more widely available I hope that many of you have been able to receive the vaccine and that it is becoming obtainable in your countries.

As I mentioned last month, IAS had the wonderful experience of working together with our colleagues from the MENA region and specifically from Kuwait on the 1st Kuwait Familial Hypercholesterolemia Symposium-4th Severe FH Masterclass & the IAS-ASPED Pediatric FH Satellite on Feb 19, 20, and 26, 2021. The three days of programming are now available on in the Education Center on the IAS website, www.athero.org. The programs are presented as the three different days of the symposium. I hope you will take advantage of this extremely informative program.

*Raul D. Santos, MD,
MSC, PhD
President, IAS*
